

# ALOUANI HATIM

AI and Software Engineering student at 1337 Coding School | 42 Network, passionate about building scalable systems and intelligent solutions, with a strong focus on Machine Learning, Deep Learning, NLP, and Big Data, complemented by hands-on web development knowledge.

## EDUCATION

- 1337 Coding School – Common Core (2023–Present)
  - Software Engineering student with focus on system programming, algorithms, and full-stack development.
- Bachelor's Degree in Information Systems and Artificial Intelligence (2021–2025)
  - Specialization: Computer Science, Artificial Intelligence, Big Data, and Advanced Data Analytics.
- Baccalaureate in Physical Sciences (2020–2021)

## TECHNICAL SKILLS

- Programming & Scripting : C, C++, Python, Shell Scripting, SQL
- Machine Learning : Scikit-learn, Pandas, Matplotlib
- Deep Learning : TensorFlow
- NLP : SpaCy, NLTK
- Big Data : Spark, Hadoop, Kafka
- Databases: MySQL, PostgreSQL, MariaDB, SQLite, HiveQL, Cassandra, Redis, HBase
- Web Development: WordPress, HTML/CSS, Nginx
- DevOps : Git, Docker, Grafana, Prometheus

## CERTIFICATES

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (2025).

## EDUCATIONAL PROJECTS

- **Minishell** : Built a Unix-like shell in C for process control and command execution.
- **Inception** : Designed and deployed a secure and scalable web infrastructure using Docker, with NGINX as the web server, WordPress for content management, and MariaDB for the database.
- **Product Recommendation Engine** : Built an Amazon-like recommendation system combining TensorFlow, PostgreSQL, web scraping, and fully containerized with Docker.
- **Internet Relay Chat System**: Developed a real-time chat application in C++ inspired by IRC, supporting multiple users, channels, and message broadcasting.

## ADDITIONAL INFORMATION

- **Languages** : English , French, Arabic.
- **Age** : 22
- **Mobile** : +212615359651
- **E-mail** : alouanihatim01@gmail.com
- **Adresse** : NOUACEUR CASABLANCA
- **Github** : @hatim-alouani
